

GERMAN CONTROL OF NEW STATION?

Government Is Watching Wireless Tower Which Has Been Erected at Sayville.

NEW LAW MAY REACH IT

Also Believed It May Come Under Provisions of Lodge Resolution.

Washington, August 9.—A powerful wireless station at Sayville, L. I., practically commanding New York harbor, and controlled by a corporation reported to be under the influence of the German government, is being observed by the Navy Department and the Department of Commerce and Labor.

Officials here have been quietly watching its progress and trying to determine if it comes within the provisions of the Lodge resolution recently adopted by the Senate declaring that the United States could not permit without protest the actual or potential possession of any harbor or other place in the American continent by any government, when possession would give to such a government practical power of control for naval or military purposes.

A wireless feature affecting the situation is contained in the Lodge resolution, which passed the House today. It already has passed the Senate and contains a provision to prohibit the operation of any private wireless plant within fifteen miles of certain government stations. Officials who have been concerned over the erection of the new tower, which is even taller and fuller as powerful as the great government plant now being erected near here at Fort Myer, Va., have been watching the action of Congress on this provision.

Noted of the generally supposed foreign owned wireless plant came to the attention of the government officials through a prominent member of the New York Yacht Club near whose country place at Sayville the tower has been erected. Important considerations of national policy moved the Navy Department, quietly to dispatch an officer from the New York Navy Yard at Sayville to examine and report upon the structure.

The Department of Commerce and Labor, being charged with general supervision of that means of communication, so far as it affects the navigation of vessels, took a hand and made a quiet investigation of its own. It was thought at first that operation of the station might be prevented upon the ground that like a cable station it could not be established and operated without a special license from the United States government. This consideration, however, may now give way to the more serious one provided by the radio-communication bill which, after conference upon some minor discrepancies between the House and Senate, will go to President Taft for his signature.

BRILLIANT FIRE, BUT SMALL LOSS

Burning Oil Casks Glare Over South Richmond, Causing Much Alarm.

Fed by two barrels of kerosene oil, a brilliant fire illuminated South Richmond this morning about 1:30 o'clock, causing many people on the north side of the river to conclude that the whole of the South Side was in flames. The blaze was caused by a conductor of a loaded Petersburg trolley in an out-house in rear of 216 West Seventh Street, on property owned by M. H. Henson. The house is one of a row of frame structures facing on the east side, running back to large manufacturing plants, and on the other side of the alley was a large lumber yard.

On account of the dangerous location, two alarms were sent in, the first from the private box of the Southern Manufacturing Company and another from the box at Seventh and Perry Streets. Assistant Chief Wise with the motor engine from the Third Street house, aided the South Richmond department, and the fire was extinguished. The building in which it originated, the loss will be small. The origin of the fire is unknown. An investigation will be ordered as to why so large a quantity of oil was kept on the premises.

While burning the barrels of oil shot flames high into the air, illuminating the entire South Side and giving rise to the belief that there was a serious conflagration.

Brickman Is Killed.
[Special to The Times-Dispatch.]
Bristol, Va., August 9.—A young man named Johnson, a brickman on a Norfolk and Western freight train which left this morning, was instantly killed when his head came in contact with a tank spout. His home was at Bristol.

News of South Richmond

South Richmond Bureau, The Times-Dispatch, 1020 Hill Street, Phone Madison 175.

Forest Hill has united with Woodland Heights in a petition for free delivery in the Southside suburbs. Augustine Roper, of Forest Hill, and H. V. Goodie, of Woodland Heights, have been appointed as a committee to discuss the matter with Postmaster Edward Allen, Jr., of Richmond. Mr. Roper has already notified the Woodland Heights folks to get ahead and have their houses numbered, and that it is only a question of a few months before three carriers, one on horseback, will be making two deliveries a day. A postal station will be installed in the store of R. G. Wood, at Twenty-eighth and Sumner Avenue. Here mail will be delivered to those who so desire. The station will be made of order and register packages. Mr. Wood will be named as superintendent.

The people of Woodland Heights, while not in favor of annexation to Richmond, are not adverse to city improvements. They have induced the county Board of Supervisors to erect electric lights and will probably have more installed in a few months. They have organized a volunteer fire department and are now installing a large bell.

City water will be provided from Richmond. The Common Council last week decided to furnish the water at the city line. It is to be supplied by the city pipes with those of the suburbs. Sewers they already have, while the water piping is also modern. It was decided that a school would be convenient, lacking and, seriously enough it is not needed. At a meeting of the Citizens League last winter it was decided that a school would be lower the tone of the suburb by bringing in undesirable students.

Neuro Youth Killed by Train.
A young man named Johnson, a brickman on a Norfolk and Western freight train which left this morning, was instantly killed when his head came in contact with a tank spout. His home was at Bristol.

After delivering a severe reprimand, Justice H. H. Maurice in Police Court, yesterday, dismissed Mary Henderson and Sidney Anne Smith, colored girls, arrested on cross walk jumping, charged with crossing the street on a cross walk. The girls were charged with crossing the street on a cross walk. The girls were charged with crossing the street on a cross walk.

With Police Justice.
After delivering a severe reprimand, Justice H. H. Maurice in Police Court, yesterday, dismissed Mary Henderson and Sidney Anne Smith, colored girls, arrested on cross walk jumping, charged with crossing the street on a cross walk. The girls were charged with crossing the street on a cross walk.

Murderous Assault Charge Dismissed.
Albert Scott, colored, charged with murderous assault, was yesterday dismissed of the charge in Police Court, Part II. But was fined \$5 and costs for disorderly conduct. Scott, who is rather small, was charged with a weapon of offense proved to be a discolored knife with one dull, wobbly blade about one inch long.

YOUTH CONFESSES TO INCENDIARISM

Has Set Fire to Thirty Hotels and Public Buildings in Last Four Months.

Greenfield, Mass., August 9.—Bernard C. Murray, son of a former fire commissioner of Hartford, Conn., confessed today to having set fire to thirty hotels and public buildings in Connecticut and Western Massachusetts during the past four months.

While no lives were lost in the many fires, hundreds of persons, a majority of them hotel guests, were imperiled and the total property loss is estimated to be nearly \$1,000,000.

At the time of the alleged confession Murray was serving a sentence of thirty days on a charge of larceny. He had confessed to the theft of \$50 and a gold watch on July 13, the victim being a hotel guest.

In his confession Murray, who is twenty-four years old, said:

"I could not resist the impulse to do it, although I realized the consequences."

Murray explained that he had gone to the second or third floors of many of the places, opened a closet and set fire to any inflammable material which might be in sight. Then closing the door, he left the building and went to some nearby place, where he could view the flames and the attendant attendant upon it. Frequently he had made a run once to some nearby building and started another blaze so that the fires might burn simultaneously.

Murray explained that he had gone to the second or third floors of many of the places, opened a closet and set fire to any inflammable material which might be in sight. Then closing the door, he left the building and went to some nearby place, where he could view the flames and the attendant attendant upon it. Frequently he had made a run once to some nearby building and started another blaze so that the fires might burn simultaneously.

T. A. LYNCH DIES IN TAZEWELL HOME

Employee of Bureau of Insurance Was Widely Known in State.

General surprise and regret was expressed at the Capitol at the death at Tazewell early yesterday morning of Thomas A. Lynch, license clerk in the office of the Commissioner of Insurance.

Mr. Lynch had always been in good health up to about six months ago, when he became ill. After a short rest he returned to his office duties. Some weeks ago he went to his home at Tazewell for his vacation, and while there he died.

Mr. Lynch had always been active in political affairs, knew many public men and had many friends. For fifteen years he was a member of the South District Democratic Committee, and as such belonged to the State Democratic Committee, reeling with the other members at the Norfolk convention last May.

For years Mr. Lynch was assistant clerk of the State Senate, under Colonel Joseph Patton. In 1905 he was appointed to his present position as Bureau of Insurance, which he held up to the day of his death.

He was forty-five years old, and is survived by his wife, who was Miss Ida Dodd, of Tazewell. He will be buried this morning at 11 o'clock in the family cemetery.
